

President, Westcoast Energy &

VP, Canadian Gas Transmission & Midstream

In his current role Steve is accountable for all marketing and business development activity for Enbridge's gas transmission business in Canada, including Westcoast Pipeline, Woodfibre LNG, and the recently acquired Aitken Creek Gas Storage facility.

Steve has been with Enbridge for 19 years. Prior to moving into his current role in October 2023, Steve was the VP, Operations, Northwest and Offshore, where was responsible for ensuring the safe and reliable operations of Westcoast, Alliance, and Vector pipeline systems.

Steve's previous positions include commercial and business development roles spanning both Liquids and Gas Transmission in Calgary, Houston, and Boston.

Steve holds a Master of Business Administration from Edinburgh Business School at Heriot-Watt University
